Please RSVP to office@sierravista.org or 325/944-4041 by August 20!

CASE MANAGEMENT TRAINING?

In May, 2019, the area near San Angelo's Bradford Elementary was hit by a tornado, and over 40 homes were damaged. Today, many families are still in need, unaware of the agencies and opportunities available to assist in recovery.

As a result, those interested in volunteering to help these individuals to find the resources they need are invited to join this case management training. Those who attend this training will work closely with families for 6-12 months to provide information and assistance in their recovery efforts.
